

Run as fast as you can.  
Let the wind blow through your hair.  
Doesn't that feel wonderful?  
Animals don't often run for fun.  
They race to find food or to escape a predator.

The fastest animals can be found everywhere:  
in the sky, on the ground, and in the water.  
Are you ready for a sprint?  
Three, two, one, GO!

# CHEETAH

I'm the fastest of all land animals. Even within the word "cheetah," you can sense my speed. Don't mistake me for a leopard, because they're heavier and much slower.
